Professional Summary

Motivated Computer Science student at the University of The Gambia with three years of progressive internship experience in software engineering, networking, UI/UX design, and IT support. Experienced in building cross-platform mobile and web applications using React Native, Expo, Firebase, JavaScript, and TypeScript.

Passionate about enterprise software development, government digital transformation, distributed systems, mobile applications, and creating intuitive user experiences. Strong ability to design scalable software solutions from concept through deployment.

Education

University of The Gambia

Bachelor of Science in Computer Science

2024 – 2028

Relevant Coursework

- Data Structures & Algorithms
- Object-Oriented Programming
- Database Systems
- Computer Networks
- Operating Systems
- Software Engineering

Cambridge IGCSE

Merit — 2023

Professional Experience

Software Engineer Intern

GSM Company

Jul 2025 – Sep 2025

- Developed a cross-platform SIM Registration System using React Native, Expo Router, Firebase, and TypeScript.
- Implemented secure authentication and role-based access.
- Integrated Firebase Firestore for real-time data synchronization.
- Built interactive dashboards and registration workflows.
- Developed an e-commerce demonstration platform using modern frontend technologies.

UI/Software Development Intern

GSM Company

Jul 2024 – Sep 2024

- Designed a complete Procurement Management System using Figma.
- Developed a responsive corporate GSM website replica.
- Created wireframes, prototypes, and UI components following modern UX principles.
- Collaborated on improving interface usability and consistency.

IT Support & Networking Intern (SWAT Technical Support)

GSM Company

Jul 2023 – Dec 2023

- Assisted in fiber optic installations and Point-to-Point (P2P) networking.
- Configured network devices and performed system troubleshooting.
- Provided technical support for end users.
- Assisted with structured cabling and network maintenance.

Technical Skills

Programming Languages

- JavaScript
- TypeScript
- HTML5
- CSS3

Frameworks & Libraries

- React
- React Native
- Expo
- Expo Router

Backend & Databases

- Firebase Authentication
- Firebase Firestore
- SQL Server

UI/UX

- Figma
- Framer

Tools

- Git
- GitHub
- Vercel
- VS Code

Networking & Systems

- Linux
- VMware
- Computer Networking
- Fiber Optics
- Structured Cabling
- Technical Support

Selected Software Projects

Enterprise Systems

- Fault-Tolerant Distributed Banking System
- University Management System
- Hospital Management System
- Police Records Management System
- Prison Management System
- Traffic Management System
- Government Portal
- National Intelligence & Statistics Management Platform

Mobile Applications

- Mobile SIM Registration Application

Business Platforms

- Premium E-Commerce Platform
- Restaurant Digitalization Platform
- Business Analytics Dashboard

Design Projects

- Procurement Management System (Figma)
- Clothify
- Valentino

Core Competencies

- Full-Stack Application Development
- Mobile App Development
- UI/UX Design
- REST APIs
- Firebase Development
- Software Architecture
- Database Design
- Agile Development
- Version Control (Git)
- Problem Solving
- Team Collaboration

Career Interests

- Software Engineering
- Mobile Development
- Backend Development
- Enterprise Systems
- Government Digital Transformation
- Artificial Intelligence
- Distributed Systems
- Cloud Computing
